Junior Civitans Rock

“I got a medal!” Paul proudly proclaimed holding up his Club Honor Key as he exited a Junior Civitan meeting almost two years ago. I countered with “That is not the only medal you will ever get!” That summer Paul joined the Army and I have been on his parents email list ever since he joined and served in Iraq. Now he is back on U. S. soil serving in a leadership role. He is what Civitans, and Junior Civitans, exemplify.

Cultivating Junior Civitans are imperative for the future of our clubs, community, nation, and world. It has been about ten years now that I have worked with our youth. As Governor-Elect, part of my focus will be to continue to emphasize support for Junior Civitans, especially on the district level, and nurture this stellar program to the best of my ability. I encourage all clubs to join with me.
